Why MAS Financial Services Ltd.?

- Strong Growth Opportunities
- Direct Distribution to aid faster growth
- Stable NIMs and stable credit costs to offset Opex pressures enabling delivery of strong RoA
- Asset quality to remain stable

MAS Financial Services Ltd. (MAS) is a diversified financial services provider focused on low-income groups and economically weaker individuals operating small businesses, as well as SMEs having limited access to formal financing channels. The company operates through 189 branches across 12 states and Union territories. MAS also carries out its business through a pan-India network of 182 NBFC partners which contribute to ~33% of business sourcing.

Investment Rationale

- A. Eyeing 2x AUM in the next 3 years: MAS' management has reiterated its aspiration of doubling the AUM over the next 3-4 years (a loan growth CAGR of 20-25%), supported by demand-led growth and a scaled-up distribution network. As the company pushes for the next leg of growth, it will look to diversify its AUM mix. While the core MSME and Wheels products will continue to drive healthy growth, MAS will look to foray into Used Cars (currently in the pilot phase) and Supply Chain Financing (as a subset of MSME loans for New and Existing customers). In terms of the salaried personal loans, MAS will cap its mix at 10% of overall AUM. Additionally, MAS expects to scale up the housing finance portfolio meaningfully (aiming to grow at 30-35% CAGR over the medium term), thereby increasing its contribution to ~10-15% in the consolidated AUM. We expect MAS to deliver a healthy ~24% CAGR AUM growth over FY24-26E.
- B. Strengthening direct distribution: Eyeing faster growth, MAS will continue to expand its direct distribution network by adding 20-30 branches in the next 6-9 months. The management expects the share of direct distribution to improve to 70-75% over the medium term vs ~67% as of Mar'24. The company will also look to further strengthen its geographical presence to reduce its dependence on the Top-4 states. While the core geographies in the West (mainly Gujarat and Maharashtra) have immense growth potential, having pre-empted the growth potential in Delhi NCR, Tamil Nadu, Karnataka and Telangana, MAS plans to foray into these geographies to kick-start its next leg of growth. Over the medium term, MAS expects the newer geographies to contribute meaningfully in its endeavour to double AUM over the medium term.
- C. Recent rating upgrade to aid CoF: Recently, MAS's credit rating was upgraded to AA- (Stable) from A+ (Positive) by CARE. This ratings upgrade will aid CoF improvement by 15-25bps over the next 6-9 months. Given that a larger chunk of the company's borrowings are MCLR linked, the company will negotiate rates with its lenders supported by the upgrade. This will also enable MAS to tap borrowings in the capital market.
- **D.** Recommendation: We recommend a BUY rating on the stock with a TP of Rs 321/share, implying an upside of 10% from the CMP.
